

HARSH MEASURES IN CHILI.  
A FORCED LOAN OF \$20,000,000 PROPOSED.

THEATRES CLOSED AND PERSONAL LIBERTY  
RESTRICTED IN SANTIAGO—ALL THE  
GOLD AND SILVER IN THE TREASURY  
READY FOR SALE AT AUCTION.

Washington, June 18.—Official mails from Chili received here bring exciting news from that Republic. The House of Deputies has passed a bill authorizing the President to levy a forced loan of \$20,000,000 to carry on the war. The measure has not yet passed the Senate, however. Under an order from the Executive, carriages are not permitted to drive on the streets of Santiago after midnight under a penalty of \$50 for the first offence and \$200 for the second. A decree has also been issued prohibiting groups of more than three persons standing together in the streets, squares or public places of Santiago. Persons guilty of an infringement of this decree will be liable to a fine of \$25 to \$100. By another decree all the theatres of Santiago are closed until further notice.

Under the authority of Congress all the gold and silver in the Treasury of Chili, composing what is known as the metallic reserve, was sold at auction on May 15. The coined silver was sold in lots of \$5,000 and upward, and the bar silver in lots of 2,000 kilograms and upward.

A NEW CHILIAN ORGAN.  
While some long-established papers like "El Mercurio" and "El Heraldo" are reported as having been impressed at Valparaiso, Chili, a new organ of an international character, "L'Echo des Deux Mondes," has appeared in that city, under the direction of M. Louis Robinet. It is published in French, the universal diplomatic language, and its first number, at least, presents an apparently impartial but extremely able defence of President Ibañeta's Government. The value to the latter of such an international publication is hardly to be overestimated, especially at a time when Europe seems disposed to recognize as belligerents the Chilean insurgents, and when France has laid an embargo upon the cruisers built in her shipyards for the account of the Chilean Government.

THE AMERICAN CRUISERS LEAVE IQUIQUE.  
Iquique, June 18, via Galveston.—The American cruisers Baltimore and San Francisco left this port at 10 o'clock this morning. The Baltimore goes direct to Callao and the San Francisco will cruise between Iquique and Arica. Admiral McCall yesterday addressed a note to Senator Edwards, Minister of Foreign Affairs, thanking him for the courtesy and kindness shown the American Squadron by the Junta during its stay here and expressing the hope that the trouble would soon reach an honorable termination.

THE CHILIAN INSURGENTS' AGENT HERE.  
City of Mexico, June 18, via Galveston.—Pedro Mont, who is commissioned by the Chilean insurgents to obtain recognition of their cause from Mexico, is also accredited to the United States.

THE EVELYN HURLBERT APPEAL.  
London, June 18.—This was the second day's hearing of the appeal of Miss Evelyn Hurlbert from the judgment pronounced against her in her suit against William Henry Hurlbert. Counsel for Miss Evelyn resumed his argument by reading entries from the plaintiff's diary in regard to the indecent letters which she alleges she received from Mr. Hurlbert, but which she said, were in the handwriting of a person called Wilfred Murry.

The Attorney General, Sir Richard Webster, on behalf of Mr. Hurlbert, said that the most deliberate perjury had been proved against Miss Evelyn in regard to the relations which existed between herself and both Mr. Hurlbert and Jackson. The judge who presided at the trial of the suit, continued the Attorney General, was in possession of her perjury, and the jury were unanimous that no promise of marriage had ever been made. The Right Hon. Edward Elmhurst Kay, one of the Lord Justices of Her Majesty's Court of Appeals, here asked to see one of the indecent letters referred to, in order to compare its handwriting with that of one which was acknowledged to have been written by Mr. Hurlbert. One of the letters was then handed up to the bench, and Sir Richard Webster, continuing, said: "I said that poor old man—"

"Lord Escher, Master of the Rolls, here interrupted the Attorney General, saying: "What old man?" "Why," replied Sir Richard, calmly, "Mr. Hurlbert is between sixty-five and seventy years of age. When he was asked if he had ever written a letter of such a character to any woman, he answered, 'No, and no man who knows me would believe that he could write such filth.'"

At this stage of the proceedings Sir Richard Webster said that he proposed reading the letters which "that woman" had sent to Mrs. Hurlbert, but Miss Evelyn indignantly protested that she had never written to Mr. Hurlbert in her life.

In the course of Sir Richard Webster's argument the Master of the Rolls, Lord Escher, asked whether there was any evidence that the defence had tried to find out what Wilfred Murry was. Mr. Cady, on behalf of Miss Evelyn, replied that there was not the slightest evidence that the defence had tried in any way to locate Murry.

DOMPLAINING OF RUSSIAN GRAIN EXPORTERS.  
St. Petersburg, June 18.—Sir Robert Morier, the British ambassador here, acting upon instructions received from the Foreign Office, has presented to the Russian Government the complaints recently made by a number of British shippers and importers as to a system of frauds in quality and quantity in the delivery of grain by Russian exporters. M. de Vishnegradsky, in reply, has promised to appoint Government agents at the ports from which Russian grain is exported, and in the importation of grain to the ports of the Black Sea, to see that the Russian merchants deliver their grain in due weight, and of the same quality as the samples from which the purchases of grain have been made by the agents of the British shippers or importers.

THE MELANITE CONVICTIONS.  
Paris, June 18.—M. Triponez, Fasselier, Turpin and Fourvier, who were each sentenced yesterday by the Tribunal of the Seine to imprisonment, fine, and deprivation of their civil rights, under conviction of participation in the sale of the secret of the manufacture of melinite, the new French explosive, to the Armstrong Gun Company, have given notice of appeal from the judgment of the court. It is reported that Triponez, who, in addition to being the agent of the Armstrong Gun Company in France, was an officer in the Territorial Army, will be prosecuted upon the charge of having been concerned in the betrayal of the secret of an important naval invention, the property of the French Government, to the agents of a foreign Government.

The Opposition will now consist of all the extreme sections, young Czechs, Anti-Semites and Ultra-Christians.

TO JOIN THE FLEET IN BEHRING SEA.  
San Francisco, Cal., June 18.—The United States steamers Mohican and Alert left here this morning to join the other Government vessels in Behring Sea. The revenue steamers Bear and Rush are already north and the Thetis and Corwin sailed yesterday. The Marine is to go on shortly and take the latest orders. It only became known to-day just what the orders are. No vessels sailed this season are to be sent away, as was the Black Diamond last summer. Every vessel is to be sent to the coast of Alaska, and a random of the date and place will be entered in the log of Revenue steamers. If, after having been warned, the vessel is caught without further delay to disperse, the vessel is to be sent to the coast of Alaska, and a random of the date and place will be entered in the log of Revenue steamers. A force of marines will guard all poachers, and there will be few, if any, cases of poaching. The Alaska Commercial Company has been awarded the contract for taking 2,000 tons of coal to Omak, Alaska to supply the Government fleet during the season.

BRITISH WARSHIPS IN ALASKAN WATERS.  
Victoria, B. C., June 18.—Captain Turner, of Her Majesty's ship Nymphe, has received a telegram instructing him to proceed north, and there to carry out his instructions, which are understood to be of the same character as those given to the commanders of the United States cruisers. Her Majesty's ship Porpoise, now on the China Station, has been ordered to the same place, the two ships to meet at a point in Behring Sea previously agreed upon. The Nymphe's orders are for a three months' cruise. It is expected that the Porpoise will go north on the same mission, making three British war vessels to co-operate with American cruisers in enforcing the agreement.

A GOVERNMENT DEFEAT IN THE COMMONS.  
London, June 18.—In the debate in the House of Commons to-day on the Factory bill, the amendment of Sydney Buxton, Liberal, to prohibit children under eleven years of age from working, was adopted by a vote of 202 to 180. The Government was thus defeated. The majority included a few Conservative members.

Sir Buxton's amendment will affect 150,000 to 200,000 children in the Kingdom, now employed in manufacturing and mining. It is a humanitarian measure, and was opposed by the bulk of the operatives, who benefit by the labor of their offspring. The Liberal amendment, which is a humanitarian measure, would prohibit work for adults. Sir J. E. Gore, explained that the proposal had been agreed to at the Berlin labor conference, in order to bring European labor conditions into line with those of the United States. He said that the Government would not accept the amendment. Sir J. E. Gore, who was a delegate to the Berlin conference, abstained from voting.

THE PRUSSIAN FINANCIAL STATEMENT.  
Berlin, June 18.—In the Upper House of the Prussian Diet to-day Herr Miquel, the Imperial Minister of Finance, presented his financial statement. The final account of the current financial year, he said, gave warning that the Government must exercise caution, for, although these accounts showed a probable surplus of 12,000,000 marks, the whole of this sum would soon disappear in the increasing expenditures. He added: "We have left our financial year behind us. Prussia's greatness lies in the prosperity of her finances, and this can be obtained only by economy. Improvements must be made in the management of the accounts of the current year of the country, were in the hands of the Minister of Finance, the chief current outlay, showing an expenditure of 22,000,000 marks over the estimate."

The House, after some discussion, approved the rail-road estimates.

Ottawa, June 18.—A Conservative Caucus meeting of both the Senate and the House of Commons was held to-day. Its main object was the introduction of Premier Abbott to the newly elected members and such others of the party as had not made his acquaintance, and to talk over political affairs generally. The Premier was well received, and his inaugural address was again and again interrupted by applause. Informal, being given up to speakers of congratulatory and exhortation to such persons feeling on minor points in the interests of the party as a whole. Nothing at all to provoke a controversy was broached, even the leadership of the House of Commons not being mentioned. All the Ministers were present except Mr. Chapin, who is still confined to his room.

AN EXCITING BALLOON TRIP IN FRANCE.  
Paris, June 18.—At La Villette yesterday noon two persons were carried away in a balloon, and it was feared their trip would result fatally; but they were rescued at Versailles to-day. The balloon started with a professional aeronaut and two other persons. When it had reached a height of sixty feet from the ground the aeronaut, who had been engaged about the outside of the car, lost his balance and fell whirling to the earth. He will probably die. Meanwhile the balloon, the two remaining occupants of which were utterly ignorant of the manner in which a balloon is handled, mounted higher and higher until finally it was lost sight of among the clouds. The Government officials telegraphed to the prefect in the outlying departments to make all the inquiries possible in regard to the fate of the two occupants of the balloon. It was feared that the balloon might ascend to a height that would cause its occupants to be frozen to death and that the balloon would then collapse.

ORGANIZING REPUBLICAN CLUBS.  
LEAGUE OFFICERS TO HOLD AN IMPORTANT CONFERENCE ON MONDAY NIGHT WITH THE ALBANY REPUBLICANS.

Albany, June 18 (Special).—The work of organizing the Republican clubs of the State for the important Albany on Monday night with a great public meeting. John E. Hodges, secretary of the Republican League of the State of New-York, has just been here, and held a conference with leading Republicans of the city and vicinity in relation to this work of organization. Next Monday leading officers of the National and State Leagues will come to Albany for a conference with the members of the party here. They will be accompanied by Rowland C. Tamm, of Michigan, who is expected to make a public address in the evening. In the party will be James A. Blanchard, chairman of the sub-executive committee of the National League; Andrew H. Humphreys, secretary of the Republican National League; E. A. McAlpin, president of the Republican League of the State of New-York, and T. Y. Byrne, national organizer.

These men will explain the scope and purpose of the League and the method of organizing clubs. The information they will impart is likely to surprise most Republicans, who have only a hazy notion of what is being accomplished, and what it is yet hoped to achieve, by these club organizations. The design is to make political clubs a power in politics, and the recent National Convention held in Cincinnati served to outline the magnitude which the movement may in time assume. Much has already been done, but only a beginning has been made. An organization such as is projected will bring in every Republican who is interested in the welfare of the party, and will be a powerful political organization. The League officers are expected to bring in every Republican who is interested in the welfare of the party, and will be a powerful political organization. The League officers are expected to bring in every Republican who is interested in the welfare of the party, and will be a powerful political organization.

The French Consul accepted the apology both personally and as representing his country. The German Consul, however, said that though personally he would accept the apology, he as representing the German Emperor and Empire must resent the insolent behavior of the President and that he would certainly report the affair to his Government. The English Consul supported his German associate. Hypolite was much frightened over the turn of affairs, and the German Consul on the back, and promised that nothing of the sort should occur again. With regard to what those persons thought was an insult to the Mexican Consul, he begged to state that he had received a telegram from President Diaz of Mexico, authorizing him to enter the Mexican Consulate and take the rebels who were seeking shelter there. It was not ground alone that he had apparently violated the sacred rights of refuge accorded by a Consulate.

The Consul then retired, but the affair is not expected to end there. The letter which he wrote to the local leaders of the insurgents have not been captured. Only the rank and file have been made prisoners and ruthlessly shot. Generals Sully-Grellier and Bellier have escaped to the woods and are expected soon to be heard from from some northern city, as were former partisans of Hypolite are tired of his cruelty and government, and his downfall is only a question of weeks.

With regard to Hypolite's madness, there is nothing strange in the story. Some years ago when a refugee in Jamaica, he went mad and was confined in the Kingston Asylum, and was even placed in a straitjacket.

IS THIS A BROOKLYN DEMOCRATIC JOB?  
A queer sort of what appears to be a Democratic "booby" grab and abuse of power was brought to light in Brooklyn yesterday. According to the story of John D. Gunning, of No. 412 Pacific street, the building inspectors of Brooklyn are trying to force the boss plumbers to use a certain kind of trap in private houses. This trap, which is sold to have been invented by John Newberry, a politician of Brooklyn, is one which the plumbers say cannot be used for any length of time. The bosses intend to fight the building department and the Plumbers' Union will help them.

Mr. Gunning's son, who is in partnership with his father, at No. 100 Orange street, said yesterday that the Health Commissioner also approved the trap.

Cincinnati, June 18.—Governor Campbell met and addressed his friends at the palace of the Burnet House to-day. The attendance was large, and the Governor was full of fire. He said that a coterie of malcontents in Hamilton County should not and would not control the destinies of the Democratic party in the great State of Ohio. Hamilton County was a large county, but a Junta of fifty men would not be permitted to thwart the purposes of the Democratic party of the State of Ohio. The Democratic Convention, he said, would have 600 delegates in it, and if Hamilton County sent eighty-two or any other number of delegates in excess of its official quota, they would not be admitted. He said he would be nominated for Governor and elected. Numerous protests were read against the action of the Hamilton County Executive Committee in ignoring the State Committee in regard to delegates.

HYPPOLITE IMITATES NERO.  
HE SEIZES REFUGEES IN A CONSULATE.

AFTER SHOOTING THEM HE INSULTS CONSULS AND PLAYS A FLUTE—A REIGN OF TERROR.

A letter from the agent in Port-au-Prince of one of the principal merchants in this city, largely interested in the Haytian trade was received here yesterday. It bears the date of June 8. There was at that time, it says, a reign of terror in Port-au-Prince, which had been lasted for nearly a fortnight. Men were being executed every day by the score in the squares and streets of the city, and nobody knew when or how the massacre would end.

On May 30 Hypolite's soldiers entered by force the Mexican Consulate and dragged out of the house General Souff, Mr. Rossier, Leger Carvin, recently Minister of Justice under Hypolite, and Carvin's brother. These men were shot under the Cathedral walls. The Diplomatic Corps, on hearing of the outrage, at once went in a body to the Palace and demanded an audience of the President.

Mr. Tweedy, acting Consul for the British Government, was the spokesman, and he did not mince his words. He demanded by what right the President had broken one of the most solemn obligations of one Government to another, and wanted to know what security the other Consular houses had against the whole Consular body by the insult offered to the whole Consular body by the outrage committed on the Mexican Consulate. This plain language was not agreeable to the sable President, who lost his temper and said, "Is this the way to talk to me, the President of this country?" Saying this, Hypolite turned his back on the several representatives, and without a word bounced out of the room, slamming the door behind him.

The Consuls looked at one another in astonishment, which was further heightened a few moments later when they heard the President playing on a flute in the next room. Nero fiddled some years ago, and Hypolite fluted a few weeks ago.

One of the consuls remarked that they would better go. They were on the point of doing this, when Lachuel, Hypolite's Minister of Foreign Affairs, rushed into the audience-chamber and begged the consuls to remain. He pointed out that the President had had a great deal of trouble and asked them to make allowances for him under the circumstances; promising at the same time that he would bring the President back. The consuls waited and soon the President returned in company with his Minister and said: "Gentlemen, you are not going. I was compelled to go out to give an order to the commandant."

Then he apologized to the consuls for his rude behavior.

The French Consul accepted the apology both personally and as representing his country. The German Consul, however, said that though personally he would accept the apology, he as representing the German Emperor and Empire must resent the insolent behavior of the President and that he would certainly report the affair to his Government. The English Consul supported his German associate. Hypolite was much frightened over the turn of affairs, and the German Consul on the back, and promised that nothing of the sort should occur again. STUCK BY A TORNADO.  
LIGHTNING AND WIND DO MUCH DAMAGE IN BERGEN COUNTY, N. J.

Reports from Hawthorne, a village in Bergen County, N. J., north of Paterson, show that the storm of the night of Thursday, Wednesday, the thunder-cloud expended most of its force in the valley at the foot of the Breakneck mountain range. Whole fields of wheat and rye were pounded flat by hail. Fruit trees were uprooted and hurled several feet away. Even oak and hickory trees were torn up or snapped off twenty feet from the ground by the wind, while many were struck from lightning and splintered. The damage to small crops footed up hundreds of dollars in that section of Bergen County.

A cow was killed by lightning at Cherry Lane and another at Hawthorne. The latter was grazing when struck. A black streak was left along its body.
